1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Morton Rosenberg on April 15, 2004.

The application has been amended as follows:

In claim 1, line 3, "though" has been changed to – through --.

In claim 1, line 5, "located" has been changed to – positioned to --.

In claim 1, line 12, "fixedly" has been changed to – fixed --.

2. The following is an examiner's statement of reasons for allowance: Prior art references such as Isella and Shuler disclose various suspension systems having cable actuated lockout controllers. However, the prior art does not teach a controller having the specific structure as claimed. The examiner also does not consider that there would have been motivation to combine a controller having the specific claimed structure with one of the prior art lockout systems.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Girvin, Reeves, Sachs, Gonzalez, Barefoot and Becker disclose various devices having features in common with the instant invention.
